DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 06 April 2021 at 04:45 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be predominantly Low today, thanks to strong winds originating from the Arctic. However, some isolated pockets of Moderate air pollution may develop in northern Scotland and the Northern Isles.

Tomorrow: Air pollution levels are expected to remain predominantly Low across the UK on Wednesday. However, some isolated pockets of Moderate air pollution may persist in Shetland and Orkney Isles, as well as the far north coast of Scotland.

Outlook: Low levels of air pollution are expected across the UK during the period, with the continuing risk of Moderate levels for some coastal areas of northern Scotland and the Northern Isles.
